

FREMP TRACK 1 PROJECTS – 2004

Track 1 projects are projects that are screened by the Fraser River Port Authority (FRPA) or by the North Fraser Port Authority (NFPA), and not by the Fraser River Estuary Management Program (FREMP) Environmental Review Committee (ERC).

Through considerable discussion between the ports and the environmental agencies that make up the ERC (Fisheries and Oceans Canada, Environment Canada and Ministry of Environment Lands and Parks), all the participants have agreed to the following criteria:

- Guidelines/Best Management Practices (BMP's) are in place
- Habitat (fish, wildlife, etc.) are unlikely
- Adverse effects (environmental and related economic/social) are unlikely
- Little public interest
- Listed track 1 project
