

ERC TRACK I PROJECTS - 2008

2008-01-F001 – Westshore (VFPA) Delta

Application to repair rip rap at Westshore Terminals at the Roberts Bank port facility. The work is similar to work done under ERC CPRs 200312F081 and 200501F003, except that it is much less extensive (2 areas requiring 900 cubic metres of rock in total compared to 14 areas in 2003 and 5000 cubic metres in 2005). VFPA is submitting this as a track I because of the reduced scope and because ERC advice for the indicated similar work is available. VFPA proposes releasing the schedule on or shortly after January 7, 2008 subject to ERC comments.

2008-01-F002 – Ocean Fisheries (VFPA) Rmd

Application for a four (4) year maintenance dredging permit to dredge within the waterlot fronting 13140 Rice Mills Road, Richmond, BC. VFPA letter sent Jan. 18/08
